YOUR INVITATION TO THE IGU 2023 COUNCIL MEETING

Founded in 1931, the International Gas Union is the global voice of gas with more than 150 members from more than 80 countries. Its membership represents 95% of the global gas market and includes industry associations and gas companies working in every segment of the gas value chain.

The IGU Council Meeting is the main annual gathering for all IGU members. It is a hybrid of IGU Committee meetings, the annual Council meeting (akin to an AGM), panel workshops, technical tours and social events.

While the committee meetings are open to IGU members only, the host country's gas industry is warmly welcomed at the Panel Workshops, social functions and technical tours.

You will find information about the program, the location, sponsorship opportunities, registration and more in the following pages.

Looking forward to seeing you all in Perth!

AGIT warmly invites you to the IGU 2023 Council Meeting in Perth in October 2023

"With several hundred international gas personnel coming to Australia this is a unique and rare opportunity for the domestic gas industry to learn, engage, network and collaborate with some of the world's most renowned industry leaders"

On offer is a wide array of Technical Tours, panel workshops and Social and Business Networking Events spread across the week. We invite you to come and make the most of this event set down for October in Perth.

Wendy Oldham

Chair, Australian Gas Industry Trust

TECH TOURS BEING PLANNED:

As part of the IGU 2023 Program we are currently in negotiations to bring you some amazing tech tours giving you providing you with some great learning opportunities.

- Woodside's Robotics Lab
- Chevron's Automation Centre
- Matrix's deep water hyperbaric testing facility
- University of WA's Hydrogen and Fluid Science Lab and Centrifuge Facility
- Hazelmere Waste to H2 Pilot Plant
- ATCO H2 Blending Facility and Green H2 Refueling
- BP Kwinana Refinery conversion to a New Fuels Energy Hub

IGU PANEL WORKSHOPS

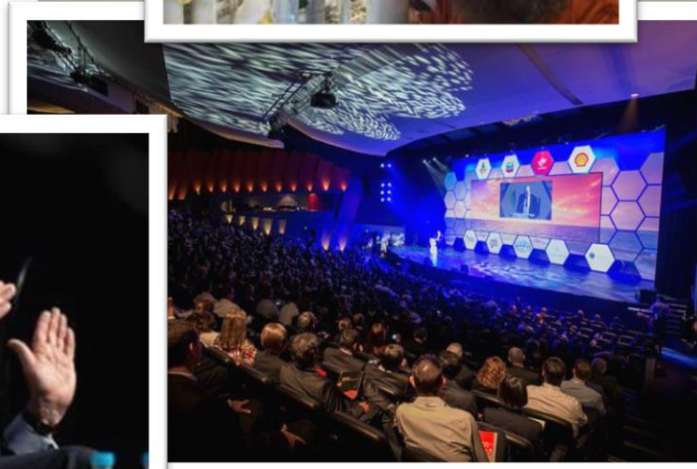

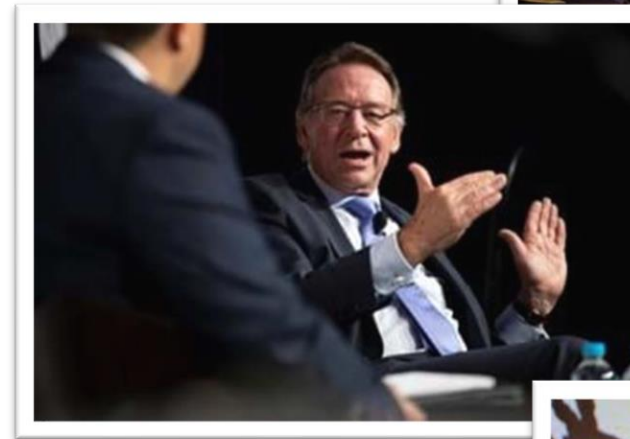

At the 2023 IGU Council Meeting, you will hear from:

- World renowned Industry Leaders
- Local and international industry experts
- IGU Research Committees

Planned topics include:

- **Energy Transition** - a story telling session about the challenges of removing gas from the energy networks and the ‘Reopening of the Game” for gas
- **Natural Gas 2.0** – looking at the efforts being put into the decarbonisation of natural gas of today and the future. It’s a look at the journey to make cleaner and greener gas.
- **Methane Emissions** – an exploration into the latest measuring, monitoring and reporting techniques
- **Gas Narratives** – an exploration of what works and doesn’t work when advocating for the industry

Each session will have time set aside for questions and answers
